

Connecting to Wi-Fi Using Windows 10

Navigate to your computers Wi-Fi Settings
(If you are having trouble locating this try typing
the word Wi-Fi into your computers search bar)

Click on the Wi-Fi settings in
your Notification area
located on your desktop

If you are having trouble type
Wi-Fi into your search bar

Once you have chosen the correct network, you will be prompted to enter your username and password.

CCSNH Network View

If logging into the

CCSNH-Guest Network View

The screenshot shows the CCSNH WiFi login interface. At the top, it says "CCSNH WiFi" in orange and white. Below that, it asks the user to "Please complete the form below to gain access to the network." There are three input fields: "Your Name:" with a white input box and a red error message "Please enter your name." below it; "Email Address:" with a white input box and a red error message "Please enter your email address. This will become your username to log into the network." below it; and "Confirm:" with a checkbox and the text "I accept the Terms of use". At the bottom, there is an orange "Register" button and a link that says "Already have an account? Log in here".
